

## Ducks in a Row: Reed Adjustment Seminar Required Materials

Here is a list of tools that you will need for reed adjusting seminar. You are welcome to bring, or purchase any of the optional supplies, but I have many extras that I will share with the group during camp. I have also included links to specific tools that I recommend. Always check in with your private lesson teacher before purchasing reed tools to get their recommendation!

### **Oboe in good working condition**

### **Lots of old reeds, in-progress reeds, and finished reeds!**

The only way to learn how to adjust is to scrape on your actual reeds!

### **Reed knife**

**Plaques** (I would order a few of these...they get lost and disappear frequently!)

### **Optional:**

Ruler

Razor blades
